

November 20, 2020

The Honorable Richard Shelby Chairman United States Senate Committee on Appropriations Washington, DC 20510

The Honorable Patrick Leahy Vice Chairman United States Senate Committee on Appropriations Washington, DC 20510 The Honorable Nita Lowey Chairwoman United States House of Representative Committee on Appropriations Washington, DC 20515

The Honorable Kay Granger Ranking Member United States House of Representative Committee on Appropriations Washington, DC 20515

Dear Chairman Shelby, Chairwoman Lowey, Vice Chairman Leahy, and Ranking Member Granger:

On behalf of the 62 undersigned organizations representing the Nursing Community Coalition (NCC), and as you continue the appropriations process ahead of the December 11th deadline, we respectfully request that you support the **U.S. House of Representatives recommended funding level of at least \$269.972 million for Nursing Workforce Development Programs** (Title VIII of the Public Health Service Act [42 U.S.C. 296 et seq.]) and at least \$177.976 million for the National Institute of Nursing Research (NINR, National Institutes of Health) as recommended in the Senate Appropriations Committee for **Fiscal Year (FY) 2021.** We also urge you to provide additional supplemental funding for these programs to support our nation's nurses, especially as we continue to combat the COVID-19 pandemic.

The Nursing Community Coalition is a cross section of education, practice, research, and regulation within the nursing profession representing Registered Nurses (RNs), Advanced Practice Registered Nurses (APRNs),¹ nurse leaders, students, faculty, and researchers. With more than four million nurses throughout the country, the NCC is committed to advancing the health of our nation through the nursing lens.² The nursing workforce is involved at every point of care, which is exemplified by nurses' heroic work during the COVID-19 pandemic.

As we continue to confront today's health care challenges and plan for the future, increased federal investment in nursing education and the workforce are imperative. Title VIII Nursing Workforce

¹ APRNs include certified nurse-midwives (CNMs), certified registered nurse anesthetists (CRNAs), clinical nurse specialists (CNSs) and nurse practitioners (NPs).

² National Council of State Boards of Nursing. (2020). Active RN Licenses: A profile of nursing licensure in the U.S. as of November 3, 2020. Retrieved from: https://www.ncsbn.org/6161.htm.

Development Programs are instrumental in bolstering and sustaining the nation's diverse nursing pipeline by addressing all aspects of nursing workforce demand. Congress has reinforced their support of nursing by reauthorizing these critical programs in March as part of the Coronavirus Aid, Relief, and Economic Security (CARES) Act (H.R. 748). Continued and elevated investments in Title VIII Nursing Workforce Development programs in FY 2021 is essential and will help nurses and nursing students have the resources to tackle our nation's health care needs, remain at the frontlines of the COVID-19 pandemic, assist with the distribution and administration of a possible vaccine, and be prepared for the public health challenges of the future.

Now more than ever, we have witnessed the importance of science in the discussion of cures and preparedness. As one of the 27 Institutes and Centers at the National Institutes of Health, NINR's research is aimed at reducing burdensome chronic illness, improving end of life care, and promoting patient-centered care across the life continuum. Our nation's nurse researchers and scientists are essential to developing new evidence-based practices to care for all patients. Through increased investments in NINR, they will be able to continue their vital work at the forefront of disease prevention, patient care, and recovery.

We thank you for your steadfast commitment to the nursing workforce by urging you to support at least \$269.972 million for the Title VIII Nursing Workforce Development Programs as recommended by the U.S. House of Representatives and at least \$177.976 million for the National Institute of Nursing Research as outlined by the Senate Appropriations Committee for FY 2021. Additionally, as we work to address the ongoing COVID-19 pandemic, we encourage you to bolster supplemental funding for these important programs. Through this investment, we can ensure our patients and communities have continued access to these vital nursing education, research, and practice programs. If our organizations can be of any assistance, or if you have any questions, please contact the Nursing Community Coalition's Executive Director, Rachel Stevenson, at rstevenson@thenursingcommunity.org or 202-463-6930, ext. 271.
